RE: William Taylor Ford & Company
Letter of Recommendation

To Whom it May Concern,

We are writing to recommend William Taylor & Company as a General Contractor, highly experienced in the commercial construction of multi-family developments.

Barron's Branch was an extremely challenging two-phase community redevelopment project with the City of Waco Texas and required a General Contractor experienced and competent in working with many entities throughout the entire process. This tax-credit affordable housing development, in cooperation with the Texas Department of Housing and Community Affairs was recently completed on-schedule and on-budget as a direct result of a team effort in which William Taylor & Company played a critical role. Our experience with WT C was professional and organized. Mr. Taylor was pleasant to work with and worked tirelessly to provide quality work.

Today, Barron's Branch is home to 168 families who could not otherwise afford the quality amenities and life-style that the community offers. William Taylor & Company was instrumental in making this possible.
